Profile

My name is Lucas, and my focus is creative frontend development. I create inventive designs and recreate them in code. During group projects, I am often the lead designer of the team. I also oversee the UI/UX and am the Scrum master (almost) always. This is why I am looking for an internship where I can build applications focused on creativity, UI and especially UX.
For me, an amazingly great application prioritizes the enjoyability of the users, experience,

Education

MBO 4 – Creative Software Development, Graphic Lyceum Rotterdam, Rotterdam
SEPT 2024 — JUL 2027
The duration of the study is 3 years, of which 2 years are theoretical. The final year is an internship year.

Projects

Evocative Town: 'Neocity-li'
Type: Interface – Creative – Ambience - Translator
Group: Individually
Short description: A Neocity with an ambience of the feeling of the game 'Stray'. To be able to read, you need to use the translator.
Techniques: React – SCSS – Gsap - Three.js - API

Employment History

Shift leader/Stock clerk, Albert Heijn Wielwijk, Dordrecht
MAR 2023 – AUGUST 2026
Depending on the needs for the planning, I worked as Stock clerk and Shift leader.
For stock clerk, I restocked and other various tasks. Those include:

- Helping customers
- Checking on expiration dates
- Unloading the truck
- Sorting cargo

For the extra responsibilities I had as Shift leader:

- Fixing problems for customers
- Opening/closing the store
- Teaching new hired stockers
- Supporting stockers in general
